

## WHEN YOU BREAK AN ARM OR A LEG YOU SHOULDN'T HAVE TO PAY ONE!

### LET COMPASS COMPARE PRICES FOR IMAGING SERVICES

Imaging costs can vary by as much as four times between facilities. That's like paying \$2,000 at one place and \$500 just down the street – even if they are both in network!

While hospitals may seem like the most convenient option, they are rarely the most cost effective, and they aren't the only high quality options in town! I can save you money by guiding you to highly-rated, options for your imaging needs: including ultrasounds, x-rays, MRI's, CT and PET Scans. Reach out to your Health Pro with your zip code, the type of procedure, and your ordering doctor's contact information.
