

DON'T FEEL OVERWHELMED, YOU HAVE OPTIONS.

You can save money on your medications. Your Compass Health Pro® consultant can review your current meds to determine if there are lower costing alternatives—such as \$4 generics or mail order options. When alternatives exist, our members can see significant savings when they contact us before heading to the pharmacy.

GET STARTED: Contact Compass with your medication name(s), strength and dosage and your Health Pro® consultant will review your pricing options.

And don't worry, we don't force you to change anything. At your request, Compass can contact your doctor and see if these suggestions are right for your specific needs.
